NEW ZEALAND

# BioScience

**“A Publication For Professional Bioscientists”**

*In Association with the New Zealand Society for Biochemistry and Molecular Biology.*

## **PUBLICATION SCHEDULE**

20th day of February, May, August and November each year.

## **CIRCULATION**

NZ BioScience is direct mailed free of charge to biochemists, molecular biologists, microbiologists, microscopists, virologists, botanists, zoologists etc. in crown research institutes, universities and technical institutes and selected industrial establishments throughout New Zealand. Total circulation is 1450 copies approximately.

## **TECHNICAL CONTENT**

Articles relating to biochemistry, molecular biology, microbiology, botany, zoology, physiology and laboratory techniques in research, education and industry both in New Zealand and overseas will be published at the discretion of the editorial board. Items on political and regulatory developments affecting the bioscience industry in general will also be included. Society and branch news of the New Zealand Society for

Biochemistry and Molecular Biology is also published in each issue.

## **COMMERCIAL CONTENT**

Display advertising, new product press releases and company news will be published relating to commercial science, laboratory supplies, instruments and services in the New Zealand scientific market.
